FLOWERING BULBS FOR FALL PLANTING.

They are not only certain to bloom abundantly, but are the easiest cared for of all flowers. The bulbs can be potted anytime from September to the middle of December, though the Earlier the Better. For the proper depth of planting and distance apart, follow the chart shown above. After planting, water well and place the pots or boxes in a cool, dark cellar, or similar place for four or five weeks. This treatment is to develop a strong growth of roots, which is very necessary to secure vigorous flower stalks, during this period, if the soil shows signs of dryness, it should be watered, when the shoots begin to show signs of life, bring into a light sunny window, water frequently and give plenty of fresh air. Only moderate heat is required, avoid a high and close temperate.

Please Bear In Mind. That all Bulbs offered in this catalogue must be secured and planted in the fall, they cannot be supplied in the spring.

We Deliver Free. Postage paid to any post office in the United States at prices quoted. Except Where Offered "By Express" then the purchaser is to pay charges.

Our Terms. Are strictly cash with the order—WE DO NOT SEND C. O. D. as the cost of collecting return charges is quite an unnecessary item of expense, and the prices being given we can conceive of no necessity to warrant being so sent.

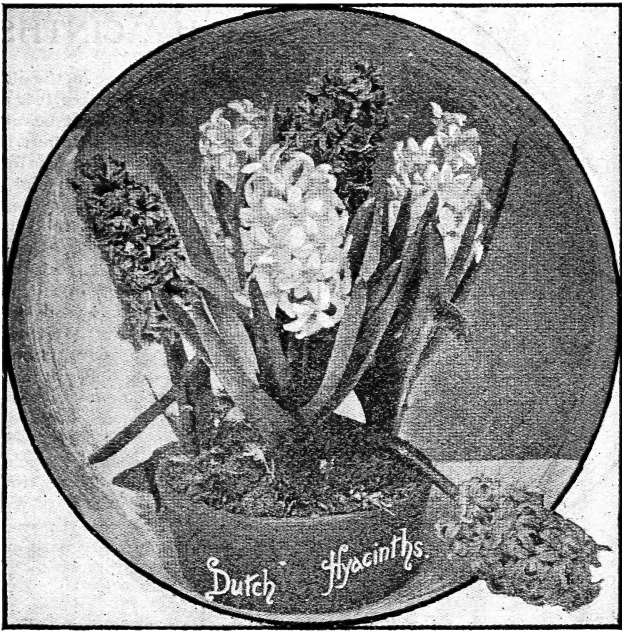

How to Send Money. Money can be sent safely either by P. O. order, bank draft, express order or registered letter. If your order amounts to \$1.00 or more, it is best to send by one of the above methods. If local checks are used they must be certified. We receive postage stamps the same as Cash, Canadian included.

We Guarantee. All Bulbs, ordered of us shall reach the purchaser safely and in good condition; if the package is lost or any of its contents injured on the way we will send again.

Time of Shipment. Not all Fall Bulbs are ready at the same time. The majority are ready to ship by the second week in September; a few sorts, which are noted in Catalogue, do not mature until October and November. Unless otherwise instructed we will send the early Bulbs as soon as ready, and the late maturing sorts when in good condition to ship.

Substitution. It sometimes occurs that our stock of some named varieties of Hyacinths or other bulbs becomes exhausted before the close of the season, in which case we shall take the liberty of substituting others of the same color and price, being equally as good, if not superior to the ones ordered. Should any of our customers object to this course, they will please so state in their orders.

MINIATURE DUTCH ROMAN HYACINTHS.

Excellent for growing in pots, pans or boxes, blooming early and freely. They may be planted closely together in the pans, boxes or pots, or in beds in the open ground with good effect. Separate Colors, White, Blush, Red, Blue, Each, 5c; Doz., 40c; 100, \$3.00, postpaid.

FRENCH ROMAN HYACINTHS.

Early White. Pure white, one of the most valuable plants for cut flowers. Each, 6c; Dozen, 65c; 100, \$5.00, postpaid.

GRAPE HYACINTHS.

These very curious and pretty little Hyacinths are perfectly hardy, and thrive and increase in partially shaded positions in the garden, also adapted for winter flowering in the house. Blue, 15c per doz., 75c per 100, White, 20c per doz., \$1.00 per 100, postpaid.

HYACINTHS.

While one of the oldest garden favorites, it is nevertheless a most beautiful and interesting plant, that succeeds well either in the house or garden and can be grown in water, sand, moss or any light, well-drained soil, and is sure to give satisfaction for the amount of care and labor bestowed on its cultivation. It has no rivalry among winter-blooming bulbs in variety of color, beauty and fragrance and the flowers are suitable for all decorations. Single hyacinths are preferable to double ones, having always larger flowers trusses and show better and more varied colors.

SINGLE HYACINTHS, SELECTED NAMED BULBS.

Feather Hyacinth

THE TRUE FEATHERED HYACINTH.

This very curious plant is well worthy of culture in pots as an odd and interesting flower; it is no trouble to grow. It, however, does best in the open ground, where it is entirely hardy and will become established. The flowers are borne in the form of feathery blossoms on graceful stems; color deep blue, tinged with red. 3c each or 25c per doz., postpaid.

TULIPS.

The people are beginning to appreciate the beauty of tulips more and more every year. There is so little trouble in bringing them to perfection, whether planted out or in pots, and are so valuable that no garden or window sill should be without them. For gorgeous colors and brilliant effects planted in beds and borders the Tulip stands unrivaled. There are no bulbs which make such a rich display of blossoms with so little care and cultivation. As with most flowers, single varieties succeed better than double when forced. For this purpose they should be planted as early as possible.

PARROT TULIPS

For the Open Ground Only.

Very large flowers of singular and picturesque forms and brilliant colors, very beautiful and interesting. The petals are curiously fringed or cut. They form extravagantly showy flower beds or borders, are of endless variety of form and color, stand a long time when cut, and should be grown in every flower garden. (See cut.), a border of these resembles an Oriental rug in coloring. Mixed each, 3c; per doz., 20c; per 100, \$1.25.

PEACOCK TULIPS.

One of the finest Tulips for pot culture. It is the earliest Tulip to bloom and one of the grandest in cultivation. The flowers are very large and of a clear, transparent brilliant scarlet, with a golden band through three of its six petals and a large jet black center which is bordered with a pure golden yellow. A magnificent sort. Each, 10c; 3 for 25c; doz., 85c.

NEW "DARWIN" TULIPS.

These splendid May-flowering Tulips grow 20 to 24 inches high with strong stiff stems. All possible colors will be found in the mixture, many of which appear in no other tulips. Each, 4c; per doz., 35c; per 100, \$2.00.

TULIP GREIGI.

Too much praise cannot given this grand Tulip. It is the tallest and showiest of all Tulips, producing flowers of enormous size and of a brilliant scarlet color with blue center, foliage spotted maroon, it comes into bloom about Decoration Day, when most other varieties of this flowers have done blooming—height, two feet, excellent for cutting. Each, 15c; Doz., \$1.50.

Single and dozen prices include postage. The 100 rates are by express at purchaser's expense.

CROCUS.

This well known little flower is the earliest to bloom, appearing as soon as the snow is off the ground. They are suitable for all gardening purposes, for planting in beds, forming lines and borders, are quite hardy and increase from year to year, and will flower easily in the house with the same treatment as the hyacinth.

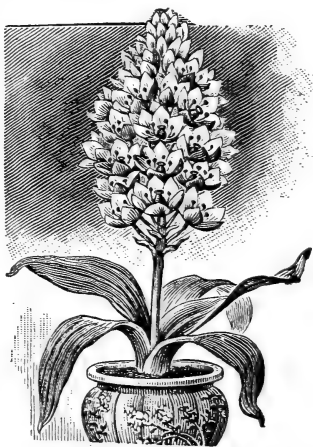

**Large White, Striped, Blue,
Yellow, Each Color Separate.**

All Colors Mixed.

Doz., 10c; per 100, 35c; per 1000, \$3.00.

Crocus prices per dozen and 100 include postage. The 1000 rate is by express, at purchaser's expense.

STAR OF BETHLEHEM.

(*Ornithogalum Arabicum.*)

A beautiful variety, throwing up a tall spike bearing numerous large, milk-white, star shaped flowers, with a black centre, and having a distinct aromatic perfume. They are decidedly pretty and interesting when growing in the garden—but are more largely grown for greenhouse and window decoration, being of the easiest culture. Largely forced by florists now for cut flowers. Each, 5c; doz., 50c; 100, \$3.00. Postpaid.

SNOWDROPS.

Planted in groups and left undisturbed, they will come forth annually with renewed strength and beauty. They are also particularly suited for planting singly in the grass, the dainty flowers showing exquisitely against the fresh green, while the foliage is sufficiently matured to cut without injury by the time the lawn is ready to be mown. In the house they will be in bloom by Christmas.

SINGLE SNOWDROPS.

15c, per doz.; \$1.00, per 100.

DOUBLE SNOWDROPS.

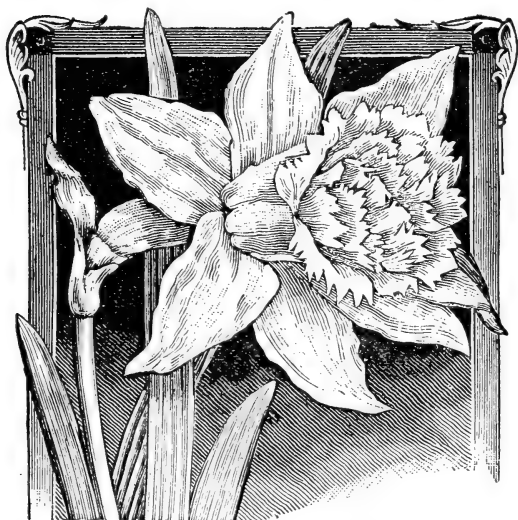

3 for 10c; 30c, per doz.; \$2.00, per 100. Postpaid.

**ELWES' GIANT
SNOWDROPS.**

One of the finest of the genus; at least three times the size of the ordinary single Snowdrop, flowers slightly marked with green spots; fine for cutting. 20c, per doz.; \$1.25 per 100. Postpaid.

Narcissus, or Daffodils.

No spring flower better deserves their growing popularity than these beautiful and fragrant flowers. Of easy culture, they are equally satisfactory for potting, for open beds and borders, bloom early, are very showy and fragrant and quite hardy. They may be planted at any time from October to January; always protect a little before frost. They are receiving wider cultivation every year and have become great favorites with the florists and others for cut flowers during the winter months.

DOUBLE NARCISUS.

Double Von Sion. "The True Double Yellow Daffodil." Rich golden-yellow perianth and trumpet. This is the old favorite so highly prized in old-fashioned gardens. It is as handsome as ever, and deserves to be planted in quantity where it can remain undisturbed for several years; it will then thrive and bloom in increasing profusion every spring. It is also one of the best winter-flowering and forcing sorts. Each, 3c; doz., 35c; 100, \$2.00.

Orange Phoenix. "Eggs and Bacon." Beautiful double white flowers with orange nectary. Splendid for pot culture or garden decoration and cutting. Each, 4c; doz., 35c; 100, \$1.50.

Alba Plena Odorata. "The Double White Poet's Narcissus." Double snow-white Gardenia-like flowers, exquisitely scented, late flowering. Each, 3c; Doz., 25c; 100, \$1.75.

Single Trumpet Narcissus.

Princeps. Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large, perianth sulphury; an immense rich yellow trumpet. Each, 3c; doz., 25c; 100, \$1.50.

Trumpet Major. Flower large and almost of a uniform deep golden. Highly prized as an early-forcing sort and largely planted for outside bedding. Each, 4c; doz., 35c; 100, \$2.00.

Single Narcissus, with Cup-Shaped Flowers.

Poeticus Ornatus. Pure white, yellow cup, margined scarlet; very early, flowering about a month earlier than Poeticus; fine forcer. Each, 3c; doz., 25c; 100, \$1.25.

Mixed Narcissus or Daffodils.

All sorts of Double and Single Varieties.

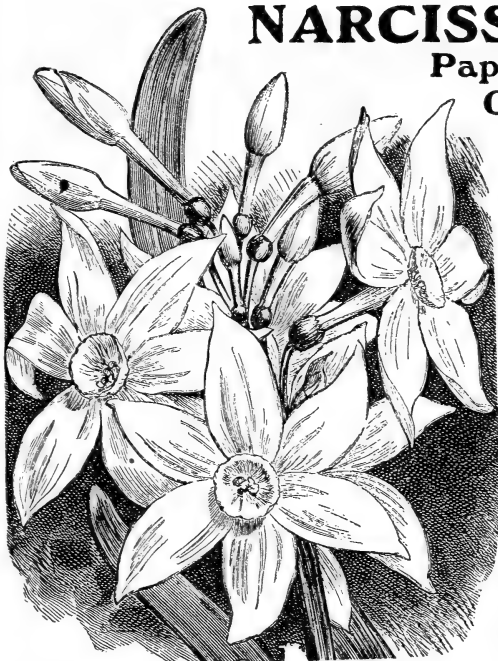

We offer these at exceptionally low prices to encourage liberal plantings. They are very suitable for growing in masses for garden decoration, and are grand for cutting, and are particularly adapted for mixed borders, "naturalizing" in shrubbery by woodland walks, in woods by streams and lakes and semi-wild, outlying grounds. They are perfectly hardy and will flourish and increase. Each, 3c; doz., 30c; per 100, \$1.50.

☞ Single and dozen prices include postage. The 100 rate is by express at purchaser's expense.

NARCISSUS,

Paper White

Grandiflora.

For winter blooming few bulbs are so popular and so largely grown as the Paper White Grandiflora. This large flowering type is such an improvement over the ordinary "Paper White" that we have discontinued offering the latter. The "Large Flowering" is more vigorous and earlier, producing purest snow white flowers of large size and good substance in large trusses. It is perhaps more largely used for early forcing for cut flowers than any other kind of bulb, being brought in without difficulty by Christmas, and if required even much earlier. Each, 4c; doz., 40c, Postpaid. By express, \$2.50 per 100.

Polyanthus Narcissus, Mixed.

We have a mixture of these splendid pot flowers, composed of finest single and double varieties at the very low price of 3 for 15c; 12 for 50c. Postpaid.

JONQUILS.

Sweet Scented

A species of Narcissus, native of Spain, easily grown in house or garden, and always a favorite for its bright yellow, deliciously, fragrant flowers, which are produced in abundance. They are very fashionable and popular as cut flowers, and can be successfully grown by every one. well suited for window plants, as the flowers seldom fail to expand, and continue a long time in perfection. Half a dozen bulbs can be put in a five inch pot and given same treatment as Hyacinths making a fine display of flowers from January to April.

Prices include postage.

The Chinese Sacred Lily.

This is the variety grown by Chinamen for decorating their temples or Joss-Houses on their New Year's Day, which occurs in February. For the most part they are grown in water in fancy bowls, with

just enough pebbles around them to keep them from toppling over. They can also be grown in pots in soil, sand or moss. We annually import from China a large quantity of the finest quality bulbs, and if planted on arrival (about October 1st) they will flower by Christmas, and a succession of flowers can be had by making several plantings. The white and yellow flowers are borne in clusters, and are highly scented. **Large Bulbs, Each, 10c; doz., \$1.00. Postpaid.**

LILY of the VALLEY.

The Lily of the valley is one of the most useful and greatly admired plants grown; the modest bell shaped flowers of purest white are highly prized for cutting purposes, and for flowering in pots in the winter.

OUR NURSERY DEPARTMENT.

The most Northern in America, is governed by the same principles that has developed and built up our immense seed business. viz.: strict integrity in discarding worthless varieties and rigid tests in scrutinizing new ones. Nothing but well known, tested varieties are offered, and only the best stock shipped out.

A certificate of inspection from the State Inspector of Nurseries, showing our stock to be free from San Jose Scale and all other injurious insects and diseases will accompany each shipment.

Prices by Freight or Express. Means that purchaser pays all transportation charges upon receipt of stock. We make no charge for boxing, packing and delivering to express or freight office.

Prices by Mail Postpaid. Means we deliver all trees, shrubs, vines, etc., to your address by mail and it will be thrifty stock, well rooted and established and sure to grow under ordinary care and conditions.

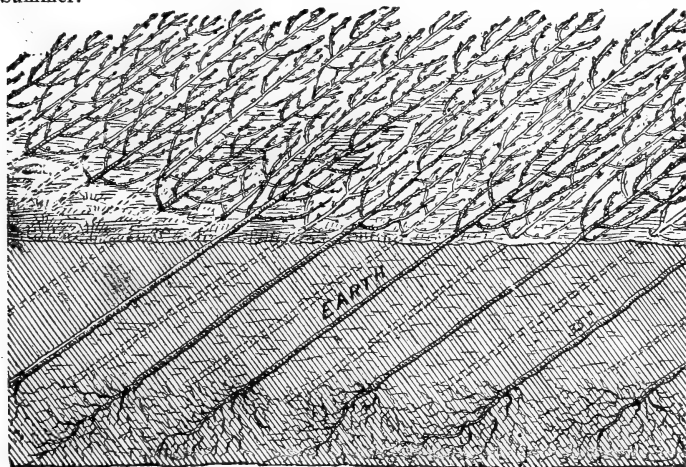

Advantages of Fall Delivery.

Nursery. Stock is completely dormant in the fall, and therefore can be easily and safely handled, while in the Spring the weather often comes off warm so early as to start the bud seriously before the customer can receive and plant—Even if the customer is not able to plant until Spring, or the climate is too cold, it is wise to have the stock delivered in the Fall, so that he can trench it in carefully, and seize the earliest moment in the Spring to set it out, instead of losing valuable time in the Spring waiting for the overworked nurserymen and railroads to get the stock around.

Nursery stock planted in the Fall gets well established in its new position and so gets an early start, and makes a large growth the first season, while stock planted in the Spring loses considerable valuable time in getting established in its new quarters.

Fruit is produced the first Summer when Grape Vines, Currants, Raspberries, Blackberries, Gooseberries, etc., are planted in the Fall.

Rose Bushes and Shrubs set out in the Fall bloom profusely the first Summer.

HOW TO "HEEL IN" OVER WINTER.

To insure success, select a dry spot where no water will stand during Winter, having no grass near to invite mice. Dig a trench deep enough to admit one layer of roots, and sloping enough to permit the trees to lie at an angle of not more than 30 degrees with the ground. Having placed one layer of roots in this trench, cover them with mellow earth extending well upon the bodies, and see that this is firmly packed. Then add another layer of trees, over-lapping the first, continuing as at first until all are heeled in. As soon as this is done, cover tops so well with evergreen boughs that they will be thoroughly protected from winds. Roses and other small stock may be wholly covered with earth.

THE GUARANTEED Minnetonka Apple.

The latest triumph of apple culture, "THE MINNETONKA" thrives luxuriantly and yields prolifically in the most rigorous climate where all others fail. The fruit is very large, flesh tender, crisp, sub-acid, the ideal cooking and choicest desert apple, very small core, blight proof. **HARDY AS AN OAK.**

We Guarantee Every tree of "The Minnetonka" to produce a bushel of fruit, and will replace free of charge, every tree that dies before this result is obtained. **CAUTION**, none genuine unless bearing our seal.

PRICES—4 to 5-foot trees, 75c, each; 3 for \$2.00; 6 for \$3.00; 12 for \$6.00; by express or freight.

Mail size—one year, 40c, each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00. Postpaid.

Edw. Erkel, Le Sueur, Minn., Writes us as follows: I have nothing but praise for the **Minnetonka Apple**, out of 9 trees purchased of you, 7 are alive and doing finely, was obliged to thin out fruit as it was too heavy for the trees, picked 10 bushels and there was plenty of fruit left.

C. Hennings, Willmar, Minn., writes: "The Minnetonka is a lovely apple, both in appearance and taste, and I think finer than the Wealthy."

A. A. Hart, Billings, Mont., "I have some of those Minnetonka Apples growing in my yard and they are the finest trees in the country and loaded with fruit every year. What can you deliver one thousand of these trees for this fall?"

Wm. Thomas, Castle, Mont., "The Minnetonka Apple trees that I got last year are fine."

Mrs. Ole Jensen, Withee, Wis., "From two trees of the Minnetonka Apple bought of you, I had in the neighborhood of twelve bushels this summer."

Three Choice RADISHES.

Return ^{this slip} **10c.** We will send 1 packet each of ^{25c.} For ^{one} ounce each. ^{50c.} one-fourth pound each. ^{\$1.60.} one pound each.

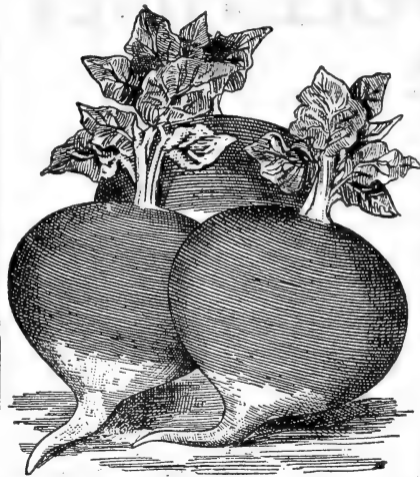

Rosy Queen. The most beautiful radish ever offered. Valuable for forcing or open ground culture. It is of rich, bright, deep red scarlet type, with a distinct white tip. It matures very early and has small tops, so that it may be planted very close. The shape is almost a perfect globe, the flesh is remarkably crisp and solid, never becoming hollow or pithy, as is the case with many so called Extra Early Radishes. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Icicle White. This superb new Radish is the finest and longest of the very early white varieties. Planted in spring the young radishes are ready for use in 20 to 25 days; their long, slender form and pure white skin are most attractive when bunched for market. This Radish is not only crisp and tender when young, but retains these qualities until the roots attain a large size, remaining in fine condition a long time. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

White Box. Entirely distinct. Short tops, rapid growth, perfect turnip shape, extra fine quality, no disposition to become pithy. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c

We consider the above three of the best Radishes on the market to-day.

FARMERS' SURE CROP COLLECTION.

GROWN IN THE GOLDEN GRAIN BELT OF THE WORLD.
THE THREE HEAVY CROPPING FARM FAVORITES.

Return this slip and **65c.** We will send one pound each of the three varieties, postpaid.

For **\$1.00** we will send 1 peck each of the three varieties.

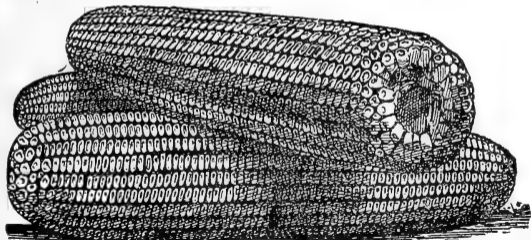

CORN—Sure Crop. Eighty days. Produces large ears 14 to 20 rows of long, bright yellow kernels. Cobs very small. The largest yielder of all the extra early sorts. On our farm where we have grown it the last four years, it out-

yielded all extra early sorts nearly 30%. Lb., 20c; pk., 40c; bu., \$1.50; bag (2½ bu.), \$3.50.

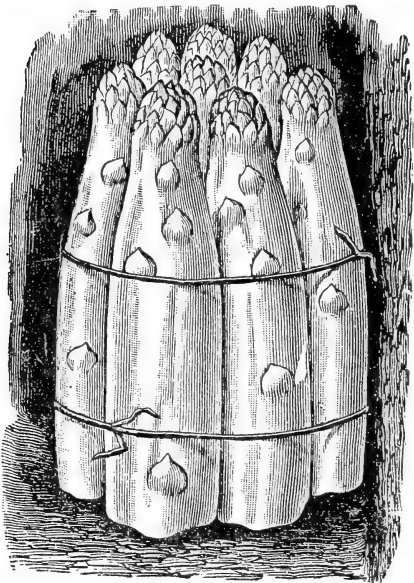

OATS—Scottish Chief. This fine variety has been grown in the highlands of Scotland for many years, where yields of 150 bushels per acre are not uncommon. The berry is of largest size, full and plump, pure white and very heavy. It withstands drouth remarkably well. Measured bushels weigh 40 to 42 pounds. Lb., 20c; pk., 35c; bu., \$1.00; bag (2½ bu.), \$2.25.

BARLEY—Manshury. The famous variety so highly recommended by Prof. Henry, of the Wisconsin Agricultural College. Yields of from 50 to 60 bushels per acre are often reported. The heads are long, well filled with plump kernels, and the straw is extra strong. It is a six rowed sort. A superior variety for malting. Lb., 20c.; pk., 30c; bu. 85c;

THE THREE Great Onions of Commerce.

Unsurpassed in size, flavor, productiveness and keeping qualities.

By careful selection for a period of years, we have evolved a race of onions in the northwest which are far superior to those grown in lower latitudes. The bulbs are firmer, larger and better flavored, mature earlier, are more productive, bring a higher price in the market and are in every way superior to those cultivated farther south. We are pleased to place on the market such good stock at such favorable prices.

NEW ROSE Baby Rambler

Blooms all the time. The best red pot or bedding rose in the world. Same color as the Climbing Crimson Rambler, with clusters of from 20 to 40 open flowers at one time. It blooms every day from May until November, if planted out; and in pots all the year round. There is no rose that equals it in freedom of bloom, and perpetual blooming qualities. Has created a wonderful sensation, and no garden, no matter how small or large, should be without it. Is perfectly hardy. Strong plants, Each 25c. Postpaid. Two-year-old field grown roots, each, \$1.00. Postpaid.

Giant Flowered PANSIES MAY'S GEM. Most Beautiful Known.

For extraordinary size of the flowers and their endless varieties of colors, combined with perfection of form and velvety texture. This strain is undoubtedly the finest mixture of pansies in the world, all selected separate colors from the best German, French, English and American growers of pansies, mixed and blended by ourselves. We offer this special blend to pansy lovers with the full assurance that it is the best money can buy. Pkt., 15c; ¼ oz., \$1.00.

FOR FALL PANTING.

To have the Earliest Flowers, Pansy seeds should be sown, in the fall any time from August to November. They are quite hardy and all the winter protection they need is a little brush or straw to keep the snow from pressing too heavily upon them. If you want Pansy blooms early in the spring. TRY THIS PLAN.
